INDEX.

A.

Abortion of five fœtuses, 447.
Abscess between pharynx and spine, 465.
——— in right iliac fossa, 512.
Acetate of lead in bronchitis, 476.
Aconite in nervous headache, 455.
Adams's case of fragilitas ossium, 193.
Amaurosis, cases of, 277, 477, 478.
Amputations in Pennsylvania Hospital, statistics of, 35.
——— in Massachusetts General Hospital, statistics of, 64.
Aneurism of arteria innominata, 488.
Aortic aneurism treated by acetate of lead, 212.
Aphthous inflammation of the mouth, 459.
Apoplexy, Jourdain on, 456.
Arseniate of copper, poisoning with, 497.
Artificial joint, Fahnestock's case of, 91.
Atlee's case of small-pox contagion conveyed by letter, 505.
———, report of experiments on the body of a criminal, 13.
Ashwell on morbid consequences of undue lactation, 469.
Asylum, lunatic at Worcester, 518.
———, ——— at Frankford, 515.

B.

Barbour on blood-letting and opium in acute phlegmasia, 330.
Barlow on distinction between typhus fever and dothinenterie, 460.
Barton, important injury of the wrist, 249.
———'s case of recto-vaginal fistula, 305.
Bell, discoveries of Sir Charles, 431.
Belladonna in flying rheumatic pains, 453.
Bellefroid on duration of human life, 179.
Betton's case of unusually hard and large calculus, 353.
Bird on employment of active principle of elaterium, 454.
—— on neuralgic pains of abdomen simulating peritonitis, 468.
——'s medico-chemical history of milk, 498.
—— on existence of certain elements of milk in urine during pregnancy, 501.
Births, excess of male among Jews, 498.
Bladder, urinary, contractions of excited by ergot, 210.
Blistered surfaces, application, 224.
Blood of diabetic patients, sugar in, 240.
Blood-letting and opium in acute phlegmasia, 330.
Bones, fragility of, 193.
Bonnel on treatment of varix of the inferior extremities, 213.
Bouchardat on diabetes, 203.
Boyer's case of encephaloid tumour of testicle, 227.
Brain, Brigham on, 171.
Brain, experimental researches on functions of, 186.
Brett's case of extirpation of tumour of parotid gland, 219.
Brigham on diseases and functions of the brain, review of, 171.
Brodie's application to blistered surfaces, 224.
Bronchitis, acetate of lead in, 474.
Budge on sympathy between cerebellum and testes, 445.
Burgess on nervous headache from exhaustion, 455.
Burggraeve's cases of absence of uterus, 185.
Burtt's case of injury of head from a fall, 513.
Butzke on cold water douche for old ulcers, 480.

C.

Calculi, expulsion of from bladder promoted by ergot, 210.
Calculus, urinary, Sutton's case of, 94.
——— of unusual size and hardness, 353.
Cancer, treatment of external by ligature of vessels and division of nerves, 220.
Carey's Political Economy, 434.
Carmichael's case of detachment of os uteri, 236.
Catalepsy, case of, 337.
Cave on plastic bronchitis, 464.
Cazanave's case of impaction of head with loss of parts, 493.
Cerebellum and testes, sympathy between, 445.
Chapman on Dyspepsia, 97.
Chew's case of absence of the uterus, 39.
Cholera, saline enemata in, 205.
Churchill on effects of parturition on nervous system of mother, 489.
——— on influence of length of first stage of labour on duration of second, 230.
———'s statistics of labour, 231.
Clark's, Sir James statement of Lady Flora Hastings' case, 241.
Club-foot, cases, 246, 247.
Cold water douche in old ulcers, 480.
Cooper on strictures of urethra, 484.
——— on dislocations of humerus and fracture of that bone, 224.
Colours, inability to distinguish, 277.
Combe, on management of infancy, 433.
Conjunctivitis, 289, 293, 294.
Consumption and scrofulous affections, use of sea-salt in, 208, 209.
Corrigan's case of endocarditis with permanent patency of aortic valves, 194.
——— on opium in acute rheumatism, 203.
———'s case of plastic bronchitis, 465.
Cornea, Pappenheim on nerves of, 439.

Crystalline lens, absorption of after blow on eye, 245.
Curling, transposition of viscera, 444.

D.

Deciduous membrane, situation of in extra-uterine fœtation, 495.
Dezeimeris' Dictionary, notice of, 184.
Diabetes, pathology and treatment of, 203.
Dieffenbach, operations for squinting, 478.
Digestion, experiments on, 186.
Digitalis, its effects on contractions of the uterus, 492.
Diuresis as a revulsive action in infants, 190.
Doherty on position of placenta in womb, 233.
Donne on composition of milk, 240.
Dothinenteritis, supposed cases of, 346.
————, distinction between and typhus fever, 460.
DuBois on remarkable tendency to hemorrhage in a family, 192.
Ducasse's case of rigidity of lower jaw, 218.
Duffin on incontinence of urine in females during sleep, 481.
Duncan's case of ulceration of the throat producing fatal hemorrhage, 193.
Dunglison's new remedies, notice of, 172.
Dusol and Legroux on treatment of aortic aneurism by acetate of lead, 212.
Dyspepsia, Chapman on, 97.

E.

Earle on medical institutions and diseases of Athens and Constantinople, 109.
Egbert's case of club-foot, 246.
Elaterium, active principle of, 454.
Ellis on insanity, review of, 155.
Emetics of ipecacuan in hemorrhage, 453.
Endocarditis with permanent patency of the aortic valves, 194.
Epilepsy from external injury cured by trephining, 211.
Episioraphy, cases of, 364.
Ergot, hæmostatic powers of, 454.
Eve's case of strangulated hernia with testicle in canal, 355.
External iliac artery, aneurism of, 218.
Extra-uterine gestation, situation of membrana decidua in, 495.
Eye, wound of, 303.
Eyelids, formation of new, 476.
Eyes, apoplexy of, 477.

F.

Fahnestock's case of artificial joint, 91.
Fleming's case of abscess between pharynx and spine, 465.
Fleury and Marchessaux on hydrocele of the neck, 222.
Fœtus, diseases of, 369.
——— in testicle, 440.
Fœtuses, five at a single abortion, 447.
France, number of medical practitioners in, 504.
———, medical education in, 504.
Fundenberg on facial neuralgia, 509.

G.

Galveston, Smith on yellow fever at, 183.
Geddings on procidentia uteri, 357.
Geddings's cases of episioraphy, 364.
Gerhard, complimentary resolutions to, 260.
Girelli on epidemic aphthous inflammation of mouth, 459.
Gonorrhœa treated by frequent injections of cold water, 486.
Granular ophthalmia, cases of, 297.
Gregory, mortality of small-pox after vaccination, 498.
Gross's Pathological Anatomy, 401.
Guersant on use of ergot to excite contractions of urinary bladder in order to promote expulsion of calculi, 210.
Gun-shot wound of head and brain, 248.
———————— of the knee, 481.
Guyon on living worms under the conjunctiva of a negro, 194.

H.

Hair, growth of, 446.
Halpin's treatment of retroversio uteri, 494.
Harden's cases of fever, 346.
Hare's observations on curvatures of the spine, 438.
Hays's report of cases treated in Wills Hospital, 277.
Hayward's statistics of amputations in Massachusetts General Hospital, 64.
Head, injury of from a fall, 513.
Heije's Journal, notice of, 175.
Heim, mortality of small-pox after vaccination, 498.
Hemeralopia, cases of, 93.
Hemoptysis, tannin in, 201.
Hemostatic powers of ergot, 454.
Hemorrhage, remarkable tendency to, 102.
————————, death from, 193.
————————, fatal from rupture of spermatic vein, 514.
Henderson, acetate of lead in bronchitis, 474.
Hernia, strangulated, with testicle in ring, 355.
Higgins, immobility of lower jaw, 510.
Hildreth on the iodo-hydrargyrate of potassium, 312.
Hingeston's case of dislocation of humerus with fracture of neck of that bone, 482.
Holscher's case of apoplexy of the eyes, 477.
Humerus, dislocation with fracture, 224, 482.
Hunter's case of sudden and temporary presbyopia, 228.
Hydrocele of the neck, 222.
Hydrochloride of barytes in scrofulous ophthalmia, 229.

I.

Immovable apparatus, Van Buren on, 48.
Insanity, review of Ellis on, 155.
Interments in New York, annual report of, 178.
Intermittent fever, 322.
Iodo-hydrargyrate of potassium, 312.
Ipecacuanha in hemorrhage, 453.
Iris, complete absence of, 476.

Iron, hydrated peroxide of in poisoning with arsenic, 497.
Ischuria renalis, 448.

J.

Jackson's address, 114.
Janson's case of gun-shot wound, 248.
Jaw, rigidity of lower, 88, 218, 510.
Jobert's treatment of external cancer, 220.
Jourdain on apoplexy, 456.

K.

Kemper College, 519.
Kennedy's case of excoriation around the throat of a still-born infant, 240.
———, abortion of five fœtuses, 447.
Kerr's case of absorption of lens, 245.
Kiestein, 501.
Knee joint, gun-shot wound of, 481.
Kreysig's case of ischuria renalis, 448.
Kronenberg's experiments on the motive and sensitive roots of the nerves, 446.

L.

Laborie, formation of new eyelids, 476.
Labour, mismanaged, followed by loss of parts, 494.
———, influence of length of first stage on the duration of second, 230.
———, statistics of, 231.
Lactation, consequences of undue, 469.
Latour on tannin in hæmoptysis, 201.
——— on use of sea-salt in scrofulous affections, consumption, &c., 208, 209.
Lee on situation of membrana decidua in extra-uterine fœtation, 495.
Lendrich on incontinence of urine, 205.
Library of Practical Medicine, 424.
Longhi's case of separation and expulsion of vagina and neck of uterus, 492.
Lower jaw, rigidity of, 88, 218.
Lucas's case of squinting cured by operation, 479.
Lugol on scrofulous diseases, 449.
Lunatic Asylum at Frankford, 515.
——— at Worcester, 518.
Lyle's case of club-foot, 247.

M.

Mackenzie's experiments on hydrated peroxide of iron as antidote to arsenious acid, 497.
Mandl on growth of hair, 446.
Marriages, influence of wealth on fruitfulness of, 497.
Menstrual fluid, qualities of, 439.
Mercury in plastic bronchitis, 464.
Milk, medico-chemical history of, 498.
——, composition of, 240.
M'Naughton's case of rupture of spermatic vein, 514.
Mollities Ossium, 506.
Monesia, its employment in medicine, 195.
Muller on sugar in blood and urine of diabetic patients, 240.
Muller's Physiology, review of, 126.
Murray on saline enemata in cholera, 205.
Mutter's case of rigidity of lower jaw, 88.

N.

Nœckel's case of spontaneous rupture of spleen, 451.
Nails, curvature of, 451.
Neck, hydrocele of, 222.
Nerves, motor and sensitive roots of, experiments on, 446.
New remedies, notice of, 172.
Nervous headache from exhaustion, 455.
Neuralgia, facial, 509.
Neuralgic pains in abdomen simulating peritonitis, 468.
Nitrate of silver, poisoning with, 239.
Nonat on functions of brain, 186.
Norris's statistics of amputations, 35.
Nux vomica in paralysis, 201.

O.

Opium, poisoning with, 508.
——— in acute rheumatism, 203.
———, watery solution of in venereal excrescences, 228.
Orfila's report on medical education in France, 504.
Osborne on suppositories, 452.
——— on belladonna in flying rheumatic pains, 453.
——— on ipecacuanha in hemorrhages, 453.
——— on thread setons, 453.

P.

Pappenheim on nerves of cornea, 439.
Paralysis, nux vomica in, 201.
Parotid gland, tumour of, extirpation, 219.
Parrish, notice of the late Dr. Joseph, 253.
Parrish's case of catalepsy, 337.
Parturition, its effects on nervous system of mother, 489.
Passy on influence of wealth on fruitfulness of marriages, 497.
Patella carried away by gun-shot, 481.
Payne's Physiological Commentaries, 437.
Payon on hydrochloride of barytes in scrofulous ophthalmia, 229.
Peebles on intermittent fever, 322.
Petrequin on nux vomica in paralysis, 201.
Physiology, review of Muller's elements of, 126.
Physiology, notice of Carus's, 175.
Piedagnel on influence of digitalis on contractions of uterus, 492.
Placenta, retention of, 71.
———, position in womb, 233.
———, incarcerated, 237.
Poisoning with nitrate of silver, 239.
———, deaths from, 239.
Porter's case of twins, 307.
Power on incision of os uteri in cases of incarcerated placenta, 237.
———'s case of softening of anterior column of spinal cord, 193.
Prael on complete absence of iris, 476.
Pregnancy, kiestein as a means of diagnosis of, 501.
Presbyopia, sudden and temporary, 228.

R.

Rat, violent symptoms from bite of, 245.

Recto-vaginal fistula, 305.
Remak on menstrual blood, 439.
Renzi, epilepsy cured by trephining, 211.
Rheumatic pains, belladonna in, 453.
Rheumatism, opium in acute, 203.
Rigby's obstetric memoranda, 432.
Roberts on diseases of the fœtus, 369.

S.

Saline enemata in cholera, 205.
Salomons' case of ligature of primitive iliac artery, 218.
Schnackenberg's case of inversion of uterus, rupture of vagina, &c., 229.
Schultz's experiments on digestion, 186.
Scrofulous affections, salt in, 208, 209.
Scrofulous ophthalmia, hydrochloride of barytes in, 229.
Scrofulous diseases, causes of, 449.
Setons of thread, 453.
Shaw on discoveries of Sir Charles Bell, 431.
Shipman, poisoning with opium, 508.
Shoulder joint, dislocation with fracture of neck of humerus, 482.
Siebold's case of twins, one long dead, 442.
Simon as a revulsive action in infants, 196.
Small-pox after vaccination, mortality from, 498.
Small-pox contagion conveyed by letter, 505.
Smee's new splint, 220.
Smith on yellow fever, 183.
Spaeth's case of poisoning by arseniate of copper, 497.
Spermatic vein, rupture of, 514.
Spinal cord, softening of anterior column, 195.
———, softening of posterior column of, 450.
Spleen, spontaneous rupture of, 451.
Splint, a new interrupted one, 220.
Squinting cured by division of internal rectus, 478.
Stanley's case of softening of posterior columns of spinal cord, 450.
Stone's case of twins, one long dead, 443.
Strictures of urethra, 484.
Strobel on yellow fever, 429.
St. Ange on monesia, 195.
Sulphate of zinc, treatment of gonorrhœa by frequent weak solutions of, 480.
Superfœtation, on, 307.
Suppositories, 452.
Sutton's case of calculus, 94.

T.

Tannin in hæmoptysis, 201.
Taupin on typhoid fever in children, 474.
Tenney's case of mollities ossium, 506.
Tenotomy, cases of, 246, 247.
Testes and cerebellum, sympathy between, 445.
Testicle, encephaloid tumour of, 227.
Testicle, fœtus on, 440.
Thompson, affection of the uvula, 210.
Throat, excoriation round of a stillborn infant, 240.
Ticknor, abscess of right iliac fossa, 512.
Transposition of viscera, 443, 444.
Trousseau on insufflation of mercurial powder in treatment of excoriations of cervix uteri, 212.
Tweedie's Library of Practical Anatomy, review of, 422.
Twins, one delivered fully the other imperfectly developed, 307, 442, 443.
Typhoid fever in children, 474.
Typhus fever and dothinenteritis, distinction between, 460.

U.

Ulceration of throat producing fatal hemorrhage, 193.
Urine of diabetic patients, sugar in, 240.
Urine, incontinence of, 205, 481.
Urine, vacarious vomiting of, 448.
Urethra, stricture of, 484.
Uterus, effects of digitalis in contractions of, 492.
———, expulsion of neck of and part of vagina, 492.
———, retroversion of, 494.
———, cases of absence of, 39, 185.
———, excoriations of cervix of, 212.
———, inversion of during parturition—rupture of vagina, &c., 229.
———, complete detachment of os, 236.
———, incision of the os in cases of incarcerated placenta, 23.
———, procidentia of, 357.
Uvula, a peculiar affection of, 210.

V.

Van Buren on immovable apparatus, 48.
Varix, treatment of, 213.
Velpeau, fœtus on testicle, 440.
Venereal excrescences, 228.
Venot's treatment of venereal excrescences, 228.
Vernois on curved nails, 451.
Viscera, transposition of, 443, 444.

W.

Walter's report of interments in New York for the year 1839, notice of, 178.
Ward, gun-shot wound of the knee, 481.
Warren on retention of placenta, 71.
Wharton's cases of hemeralopia, 93.
Wickham's case of aneurism of arteria innominata, 488.
Wills Hospital, report of cases, 277.
Wilcox's case of bite of rat, 245.
Wildberg's Journal, 175.
Winnie, transposition of viscera, 443.
Wright on action of ergot externally applied, 454.
Wrist, on an important injury of, 249.

Y.

Yellow fever of Texas, Smith on, 183.
Yellow fever, Strobel on transmissibility of, 429.
